It's a perfect day for saying what you need to say  
It's a holy day for washing all your sins away

Like Heaven's light, we burn so bright  
Like shooting stars, we shine

And we All Fall Down  
We will live forever

Close your eyes  
You can hear the sweetest lies  
No goodbyes  
No such thing as out of time

Like Heaven's light, we burn

And we All Fall Down  
We will live forever

Let it out  
Say it now  
You can make it better

And we All Fall Down  
We will live forever
