Day by day  
I'm fighting every moment just to  
Stay away from the pressure of the moment just to  
Make a break for the nearest exit where I'm gonna  
Find my way, I'm gonna find my way out

Don't know how I get the feeling that I'm being buried  
Underground a little deeper every time I stop to  
Glance around, well there's a shovel in my hand I wanna  
Throw it down, I really wanna throw it down now

Cause what they're telling me  
I have to disagree  
Straight ahead I can see  
It's so plain I can see

And I feel it's time  
Let my life unwind  
Doing everything you told me to  
Has got me looking just like you  
And I feel it's right  
Running to the light  
Cause flying isn't just in dreams  
Gotta find out what it means to feel Alive

Live to fight, fight to live  
Taking less than I give  
Doors are locking, keep on knocking  
Wallet leaks like a sieve  
Think I'm aching from awaking  
But I can't stay in bed  
I gotta give it all, I'm giving it all

Cause what they're selling me  
You know I get for free  
Straight ahead I can see  
Through the crowd I can see

And I feel it's time  
Let my life unwind  
Doing everything you told me to  
Has got me looking just like you  
And I feel it's right  
Running to the light  
Cause flying isn't just in dreams  
Gotta find out what it means to feel Alive

It's so plain, I can see  
And I feel it's time  
Let my life unwind  
Doing everything you told me to  
Has got me looking just like you  
And I feel it's right  
Running to the light  
Cause flying isn't just in dreams  
Gotta find out what it means to feel Alive
