Welcome to your new creation
I'm a beauty, celebrate it
Never got an invitation
You can love or you can hate it

Some might say they think you're crazy
But I think that you're amazing
Never thought you'd know the meaning
Wait to meet me, it's a good thing

I am alive
I can't deny

Cause when you see my face
You're gonna know your place
Is Never Without Me
And when you see my eyes
You'll see through all the lies
You're Never Without Me
Never Without Me

Do you like the unexpected
Your attention redirected
Can I set your world on fire
Burn it down then take ya higher

I am alive
You can't deny

Cause when you see my face
You're gonna know your place
Is Never Without Me
And when you see my eyes
You'll see through all the lies
You're Never Without Me
Never Without Me
