I need my guardian angel
I've been found guilty and it's no lie
The story's twisted and tangled
We sacrifice just to satisfy

(Ohhhhh) And it doesn't even matter
(Ohhhhh) What kind of skin you're in
(Ohhhhh) You know what could be better?
If we'd look deeper in

I'm nothing more, nothing less than human
Never more, never less than human
I'm nothing more, nothing less than human
Of all the things they're calling me, just know that I'm Only
Human

The young are learning their places
For every fault we will crucify
Divide mankind into races
As if we ever could choose a side

(Ohhhhh) Yeah it's more than just believing
If we could understand

I'm nothing more, nothing less than human
Never more, never less than human
I'm nothing more, nothing less than human
Of all the things they're calling me, just know that I'm Only
Human

We're nothing more, nothing less than human
Never more, never less than human
I'm nothing more, nothing less than human
Of all the things they're calling me, just know that I'm Only
Human
