Better Days

It's a beautiful day in the new world

If I can figure it out

I had the craziest dream I could take it

If I can breathe it in,

I can breathe it out

I can't change my yesterday

But I can change right now

I’ve got a vision that keeps repeating

And it’s waiting for me

Caught the scent of a new beginning

There’s no stopping me

Don’t need the normalcy

I can't change my yesterday

But I’m starting over now

(Go and get it)

Go (or regret it)

These are the days we are given so don’t stop now

(Go and get it)

Oh (or regret it)

Time to begin livin my way now

It's a beautiful life I'm living

Though it don't come for free

I'm the queen of 1000 hearts and

Here's the mystery, not even royalty

I can't change my yesterday

But I’m changing my world now

(Go and get it)

Go (or regret it)

These are the days we are given so don’t stop now

(Go and get it)

Oh (or regret it)

Time to begin livin my way now

These are better days

And you might just join in, too

Cause we're making waves

And they'll crash right into you

Crash right into you

(Go and get it)

Go (or regret it)

These are the days we are given so don’t stop now

(Go and get it)

Oh (or regret it)

Time to begin livin my way now
