# Love of My Life

I wish I could see myself through your eyes

So I stare and look deep inside

And the more that I see in you

The more that I breathe with you

I've never felt more alive

Love of my life

You believe in me like I wish I could

Love of my life

I'm finally understood

I'm eager to learn and to see what's new

It's a whole 'nother world with you

Like anything's possible

I feel unstoppable

Standing so tall next to you

Love of my life

You believe in me like I wish I could

Love of my life

I'm finally understood

And I’ve never gone all in before

(Now there’s you)

And I’ll never need anything more

Though we’re often apart, I hold on

Cause you make me strong

Forever twined with your heart is where I belong

Love of my life

I’ll believe in you like I always do

Love of my life

I’m finally understood

Love of my life

You believe in me like I wish I could

Love of my life

It’s all from me to you
