# Resurrexit

Tired of fighting you, tired of fighting me

Like I’m making friends with my enemy

Gun behind my back, gun in front of me

God, I can’t believe

Brought me to my knees

Push my last breath out my chest

And now I’m back from the dead

Like you promised, like you promised

My story’s not over yet

You brought me back from the dead

Like you promised, like you promised

And now I’m back from the dead

It’s a mystery, it’s a lucid dream

I can see the light as they bury me

I was holding out, you were holding on

Never giving up till you brought me home

Be a super freak, get your name in lights

Be a sociophile, get a million likes

Trade a cover shot for your dignity

Tell yourself you got immortality

And now I’m back from the dead

Like you promised, like you promised

My story’s not over yet

You brought me back from the dead

Like you promised, like you promised

And now I’m back from the dead

And I see the light again

Feel the warmth caress my skin

Hear your voice calling me in

I’m back from the dead

And I’m reeling in this feeling

It’s coming straight from my head

I’m back from the dead

For a moment, then it’s over

It’s just like you said

You brought me back from the dead

Like you promised, like you promised

My story’s not over yet

You brought me back from the dead

Like you promised, like you promised

And now I’m back from the dead
